Late Payment Fee and Charge	Not applicable
Prepayment / Early Settlement / Redemption Fee	<p>In the event of early repayment of the Loan in full, the APR of the Original Interest Rate of the loan (will be displayed together with the final approval result before confirmation of drawdown) becomes applicable instead of the Drawdown Interest Rate from the drawdown date to the early repayment date of the loan, which is higher than or equal to the Drawdown Interest Rate, “Personal Loan” and “Top-up Loan” can be up to 34.55% and “Debt Consolidation Loan” can be up to 35.81%. (See “Additional Information” point 3)</p> <p>Notes: Customer should consider this fee before deciding whether to pay off the loan early or not. Interest payable is calculated according to the reducing balance method. More interest will, in general, be included in earlier repayments, and less on principal. The amount of outstanding interest is likely to be small when repayments have been made as scheduled for some time. Customer should compare total amount involved in early settlement and the amount of outstanding interest before making a decision of early settlement.
